FACTS

WITH one possible exception, our firm produces more of the seeds they sell than any Seed Merchants in the United States or Canada. Ten thousand (10,000) acres would be a very conservative estimate of the acreage we supply stock seeds, and these crops are constantly under our personal supervision, while growing. We do not claim to grow all our seeds, like some of our worthy competitors, as such statements to thinking people are simply ridiculous. The seeds that are grown for us by other growers we know them to be thoroughly reliable, therefore we send out our Seeds with every assurance that they will prove second to none as to quality.

HARD TIMES

THE cry of hard times in all branches of business has also reached the *Seed Merchant*, and this feeling has unfortunately induced the jobber to make closer prices than has ever been known before. If you will give the prices we quote careful consideration, you will fully agree with us. For instance, we believe absolutely if the Seed Trade have their usual demand for Red Wethersfield Onion, we will all be glad to pay $2.00 per lb. and over. This price fills our views at this time, and at this figure we would consider it a good purchase, but competition has hammered it down and we are with them, as we propose to care for our friends and patrons.

Yours very respectfully,

NORTHRUP, BRASLAN, GOODWIN CO.
